Development Costs:

\$150/Hr/assigned developer

MAX: 4800/day

Avg. 8Hr workdays

Lunch breaks are unpaid and last upto an hour

Onsite computer Estimate (\$2,000)

Server:

BUFFALO TS1400D1604 16TB TeraStation 1400 16TB Raid NAS = \$771.20 [LINK](#)

Microsoft Windows Server 2016 Standard - 16 Core – OEM (P73-07113) = \$689.99 [LINK](#)

On an itemized receipt of activity we will be able to show which developers are working on which part, and how many hours they need to be paid for. Since rarely all 4 developers work on the same thing, we need an itemized receipt for the customer.

Example Itemized Invoice

11/6/2017

Base Rate: \$150/Hr
Optional Lunch Break: -\$150/Hr
Total Daily Hours Per Person: 8
Maximum Daily Total: \$4800
